

List of speakers at the annual meeting 21-22 Jan. 2010

Stable Isotope Fingerprint in Peptide Masses - Evidence of Early Life?

Roman A. Zubarev, Karolinska Institute, Stockholm

Quantitative in vivo bioanalysis using time of flight mass spectrometer and fast micro-LC

Gunnar Stenhagen, AstraZeneca

LC/MS analysis with FAIMS interACE - An efficient way to minimize interference from excipients in Pharmaceutical product analysis

Lars Dencker Nielsen, LEO Pharma

LC-MS-MS applications in a clinical biochemical laboratory - routine and research

Jørgen Hasselstrøm, Århus Universitetshospital, Risskov

Cereal proteomics. from 2D spot patterns to quality and 3D structures

Birthe Svensson, DTU Systembiologi, Enzyme and Protein Chemistry

To be announced

René Egebro Jensen, Neurosearch

Metabolism of peptide drugs in drug discovery

Jørgen Olsen, ADME Department, Novo Nordisk

To be announced

John Fletcher, University of Manchester, Surface Analysis Research Centre

Application of PTR-MS for measuring odorous compounds from agriculture

Anders Feilberg, Det Jordbrugsvidenskabelige Fakultet, Aarhus Universitet

Melamin - baggrund og analyser

Jens Hinge Andersen, Fødevareinstituttet, DTU

Dansk Selskab for Massespektrometri

Company speakers:

[Advances in Mass Spectrometry and Allied Technologies](#)

Jim Kapron, Strategic Marketing Specialist, Thermo Fisher Scientific

[Metals in Medicine: Locating a Platinum Binding Site and Ion Mobility Derived Gas Phase Atomic Interaction Radii](#)

Iain Campuzano, Waters

[New application opportunities in GC and GC/MS using interchangeable Microchannel Wafer Technology](#)

Jonas Björklund, Perkin Elmer

[Ultra High Definition Mass Spectrometry and UHPLC Separation](#)

Peter Abrahamsson, Nordic LC/MS Specialist, Agilent Technologies Sweden AB

[TargetAnalysis, Multitarget Screening with the ESI-Tof and ESI-Q-Tof](#)

Aiko Barsch, Bruker
